

# GREENPOWER

Design. Build.  
Race. Innovate.

# Racing

## What is Greenpower?

Greenpower Racing is a STEM competition where students design, build, and race electric cars. Teams learn engineering, teamwork, and problem-solving while competing against other schools.

## What Will Students Do?

- Learn engineering and technology skills
- Work as a team to solve problems
- Test and improve the car
- Compete in races against other schools

## Who Can Join?

- Open to all JMS students
- No experience needed
- Anyone interested in STEM, racing, or building things

Scan the QR code to add your name to the list to be contacted for informational meetings!

We look forward to a GREAT season. Go Jags!
