PREFACE

This document is one of several publications that a Health Science or Biomedical Science educator or HOSA Advisor should have in his/her professional library. Other publications which contain organizational information include the HOSA HANDBOOK, HOSA, Inc. Bylaws, HOSA Bylaws, and the ILC GUIDE. The POLICIES AND PROCEDURES MANUAL provides HOSA, Inc. and HOSA leaders with a better understanding of how the organization operates.

Written policies and procedures are essential to the effective and efficient operations of the organization; therefore, the policies are ever-changing.

The HOSA, Inc. Executive Committee maintains the Bylaws and makes the necessary changes from time to time in the POLICIES AND PROCEDURES MANUAL. Any suggestions to improve these policies and procedures should be directed to the Chairman of the HOSA, Inc. Board of Directors or to the Executive Director.

Let me express my appreciation to Joyce Brandt, Ph.D., Past Chair, HOSA, Inc. Board of Directors, whose leadership and vision in chairing the Policy and Nominating Committee, 1994, and the Long Range Planning Committee, 1994-97, contributed significantly to the value of this document. In addition, special thanks goes to Belinda Mahone, Past Chair, and to all those persons who contributed to the current revision of this document.

And finally, a very heartfelt thanks to the HOSA Management Team for providing the vision of excellence that makes HOSA the number one student organization for tomorrow's healthcare professionals!

*Peg Enslin, RN, Ed.D., Chair
HOSA, Inc. Board of Directors

The HOSA, Inc. Board of Directors approved the following dress policy that began at the **2010 ILC in Orlando, Florida** with nongender revisions at the 2017 HOSA, Inc. Board of Directors meeting.

HOSA's dress code policy has different areas of emphasis: general session dress; competitive events dress; and official function dress (workshops, HOSA expo and social activities).

General Session Dress (REQUIRED):

HOSA's Official Uniform Policy

OR,

 - Accent: maroon HOSA scarf
- Members may choose to wear knee-length skirt or slacks

- Belt (blue or black)
- Head covers that are required for religious purposes or to honor cultural tradition are allowed.

Competitive Events Dress:

Delegates must adhere to the policy as specified in the individual competitive event guidelines for the orientation and event in which they are competing.

If the competitive event guidelines identify **business attire** is appropriate, competitors can either wear the official HOSA uniform or any of the following dress is acceptable (color is not specified for clothing or shoes for competition):

- | | |
|------------------|--|
| • Suit | • Shirts |
| • Sports Jackets | • Skirts |
| • Pants | • Dresses |
| • Jackets | • Shoes (closed-toe; open-toe; heeled sandals are permitted) |

Or, Official HOSA Uniform

If the competitive event guidelines identify clinical uniform or attire appropriate to the occupational area for skill events, the following dress is acceptable (scrubs can be of any color/design, with or without a HOSA emblem):

- | | |
|-----------------------------|--|
| • Scrubs | • Clinical shoes or tennis shoes |
| • Khaki Pants with Polo Top | • Note: Shorts and flip-flops are not acceptable HOSA clinical attire. |

Process for Awarding Competitive Event Dress Bonus Points:

- At the ILC, dress bonus points are awarded unless a dress violation is agreed upon by the Event Manager and a member of the HOSA CE staff. The Event Manager must notify the Event Lieutenant or Category Chair. When dress points are not awarded, this must be indicated on the HOSA Event Section Summary form, and signed by a member of the CE Program staff.
- Judges are NOT responsible for the awarding of dress bonus points; this is handled by competitive event personnel.

Competitive Events Dress Tips:

No policy can possibly cover all contingencies so HOSA members must use a certain amount of judgment in their choice of clothing to wear for HOSA competition. HOSA members who experience uncertainty about acceptable HOSA attire should ask his/her HOSA local or state advisor.

Unacceptable clothing for competition (but not limited to):

- Casual tank, crop or tube tops
- Denim clothing or canvas shoes
- Torn, dirty, or frayed clothing
- T-shirts
- Denim pants in colors other than blue
- Clothing that has obscene or suggestive printing or pictures that may be offensive.
- Sweat pants/shirts
- Blue jean skirts and dresses
- Flip-flops and Thong sandals: shoes that are flat, backless, made of rubber or leather, plain or embellished with beads, etc., consisting of a flat sole held loosely on the foot by a Y-shaped strap, like a thin thong, that passes between the first (big) and second toes and around either side of the foot.
- Tennis shoes
- Beach wear; athletic clothing, swimwear, sheer or mesh clothing and sports clothes
- “Shorts”, “capri pants” and other short pants (Dress pants are acceptable.)
- Revealing clothing i.e. excessive cleavage, back, chest, stomach, under garments, etc.

Note about HOSA’s Dress Code Policy:

- Head covers that are required for religious purposes or to honor cultural tradition are allowed.
- A competitor should dress appropriately, based on the dress standards outlined for the gender to which they identify.

Official Function Dress (Workshops, HOSA Expo and Social Activities):

Appropriate business attire is required for official functions including the HOSA Expo and workshops in conjunction with the ILC. Social activities dress code will include everything EXCEPT: athletic clothing, swimwear, sheer or mesh clothing, tank tops, muscle shirts, crop tops and clothing with obscene or suggestive printing. HOSA METHOD FOR DETERMINING FINALISTS IN COMPETITIVE EVENTS REQUIRING MULTIPLE SECTIONS

Due to the technical nature of many of our Competitive Events, necessity has dictated that a method be derived to expedite the running of the events. After examining alternatives, HOSA, Inc. piloted a mathematical method to determine finalists at the International Leadership Conference. The following is the rationale for this technique and an explanation of its use.

1. **FAIRNESS TO THE COMPETITOR** -- When the previous method of determining finalists was used, there was no guarantee the top 10 students selected would be the best. Whenever multiple sections of an event were run, only the top from each section were allowed to compete in the finals. Since there is no seeding of competitors in HOSA, it is possible that the best 10 competitors could be entered in the same section. Hence, they would be eliminated from becoming finalists. Standard deviation eliminates the need for a final run-off competition and, therefore, allows for the possibility of the best competitors being recognized.
2. **DIFFERENCES BETWEEN JUDGES AMONG SECTIONS** -- Regardless of the specificity of the rating instrument, there always will be differences when different teams judge different sections. A means of compensating for these differences is necessary. The mathematical method will accomplish this.
3. **TIME** -- To run finals in any event requires a great deal of additional time and personnel. Mathematically calculating the finalists eliminates the need for a final run-off competition.
4. **ELEMENT OF SURPRISE MAINTAINED** -- Whenever a final run-off competition is announced, the element of surprise is greatly reduced. For those who did not make the finals, there is no sense of anticipation for the awards ceremony. The method used maintains this element of surprise until finalists are announced at the awards ceremony.

*STANDARD DEVIATION IS USED IN ALL EVENTS THAT HAVE MULTIPLE SECTIONS (WHETHER THEY ARE IN ROUND 1 OR ROUND 2). Examples of events **but not all** as they change as the guidelines change are:

APPENDIX J

STANDARD DEVIATION POLICY

As discussed in the *HOSA HANDBOOK*, HOSA, Inc. adopted the use of the “standard deviation method” to determine winners when multiple sections with different judges per section are necessary. The rationale for this method is detailed in the current *HOSA HANDBOOK*.

Whenever possible, HOSA encourages single section grouping to avoid using the standard deviation method.

When multiple sections are a necessity, HOSA, Inc. adheres to the following guidelines whenever possible:

1. All sections for an event should have any equal number of competitors.
2. Competitors are randomly assigned to sections.
3. Judges are randomly assigned to sections.
4. The preferred minimum number of competitors (individuals or team) is ten (10).
5. Three (3) judges per section are preferred, less than two (2) judges is avoided.

For a variety of reasons, we sometimes find it difficult to satisfy all guidelines for all multiple section events. However, by using random assignment of competitors and judges, the Competitive Events Committee and the Board have confidence in the results.

HOSA uses a special computer program to compute the standard deviation and rank order event winners for multiple section events. Each event winner list is reviewed by the Event Lieutenant, Director of Competitive Events, and Chairman of Competitive Events for validation purposes.

HOSA STEPS FOR DETERMINING FINALISTS IN COMPETITIVE EVENTS REQUIRING MULTIPLE SECTIONS

The process for implementing the HOSA, Inc. Mathematical Method for Multiple section Finalists Identification is explained below by first identifying symbols for scores and sections; second, listing the steps to be taken; and third, providing an example using hypothetical scores.

SYMBOLS FOR SCORES AND SECTIONS

ICAS	- Individual Competitor Average Score
AJS	- Average of Judges' Scores for Each Competitor
JDS	- Judges' Differential in Scoring between two (2) sections
AJDS	- Average Judges' Differential in Scoring between three (3) or more Sections
CS	- Control Section -- the Section having the highest AJS (highest AJS, if three or more Sections used)
AICAS	- Adjusted Individual Competitor Average Score
FCS	- Final Competitor Score

STEPS IN IMPLEMENTING THE MATHEMATICAL METHOD

1. Determine an **Individual Competitor Average Score** (ICAS) for each competitor in each section.
- Add all scores (one per judge) for each competitor; divide by number of judges; result equal the ICAS per competitor
2. Determine the **Average of Judges' Scores** (AJS) for each section.
- Add all Individual Competitor Average Scores (ICAS) separately by section; divide total by number of competitors in a particular section; result equals the AJS for each section.
3. Determine the **Control section** (CS)
- Compare the Average of Judges' Scores (AJS) for all sections. The section with the highest AJS (or highest AJS, if three or more sections used) becomes the Control Section.
4. Determine the **Judges' Differential in Scoring** (JDS) between sections.
- Subtract the **lower** Average Judges' score (AJS) from the **higher** AJS; the difference equals the Judges Differential in Scoring, when two (2) sections are used; the results equal the JDS.

- When three (3) or more sections are used, an average of the AJS totals for all sections lower than that of the Control section (CS) must be obtained by adding these AJS totals and dividing by the number of sections with lower AJS totals.
5. Determine an **Adjusted Individual Competitor Average Score** (AICAS) for each competitor in each section except those in the Control Section (CS).
- Add the amount of the Judges Differential in Scoring (JDS) to each Individual Competitor Average Score (ICAS), except those in the Control Section (CS).
6. Identify the **Final Competitor Score** (FCS) for each competitor.
- For the Control Section (CS), the original Individual Competitor Average Score (ICAS) becomes the Final Competitor Score (FCS) for each competitor.

- For all other sections, the Adjusted Individual Competitor Average Score (AICAS) becomes the Final Competitor Score (FCS) for each competitor.

7. Determine the Rank Order of each Final Competitor Score (FCS).
 - Assign a rank number to each Final Competitor Score (FCS).
8. Identify as finalists the top 10 ranked Final Competitor Scores (FCS).

EXAMPLE OF USE OF MATHEMATICAL METHOD

Hypothetical Event: (Individual) - Prepared Speaking
or
(Team) - Parliamentary Procedure
Number of Competitors/Teams: 20 (10 per section)
Number of Sections: 2

[To ensure accuracy of results, it is recommended that each section should include a minimum of ten competitors or ten teams if at all possible.]

Number of judges 6 (3 per section)
